Inspiring Life Story

The CIU Alumnus of the Year ceremony was an inspiring moment in time. Bill Harding's ('50) acceptance speech at HC14 was a moving recap of his 40 years in Ethiopia told in a way that only a seasoned missionary and teacher could tell. In his own words "it is because of God's love and faithfulness that I have come thus far."

Faculty Forum on Tough Issues

ICS faculty served on a panel during Homecoming discussing the significant issues that tomorrow's missionaries will face when they follow the call. They covered a broad variety of topics and kicked off the faculty break-out sessions that happened later that afternoon. (15:32)

Alumni Spotlight

Michael Potts ('81) and his wife Linda have served churches and trained pastors in Europe and the US since graduation. In 2001, at age 45, Michael was diagnosed with Parkinson's disease while serving as Senior Pastor of a growing church in FL. The emotions of his life were disturbed as he found himself seeking to reconcile who he knew God to be with what he was experiencing. The product of this struggle is "Living In the Meanwhile," a book about being willing to live in the wonder of what God is doing because of being captivated by who

God is.
